DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 12/10/2008 was considered by the examiner. The references disclosed within the IDS fail to read on the allowable subject matter discussed below and in the applicant's arguments. Specifically, the references fail to disclose the set of light intensity data corresponding to a frame of intensity data and the gradient or contrast is determined across a plurality of pixels within said frame of intensity data.

Response to Arguments

Applicant's arguments, filed 08/18/2008, with respect to claims 104, 122, and 126 have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Allowable Subject Matter

Claims **104, 107-123, 125-127** are allowed.

As to claim **104, 122 and 126**, the prior art of record, taken alone or in combination, fails to disclose or render obvious the apparatus further comprising an image enhancer to enhance image data representing one set of light intensity data to be displayed on a display to facilitate the detection by a user of the interference fringes, the image enhancer comprising at least one of: a gradient determiner to determine from a set of light intensity data light intensity gradient data and a modifier to modify the image data to be displayed in accordance with the determined gradient data; or a contrast determiner to determine contrast difference data by comparing the set of light intensity data with a reference set of light intensity data and a modifier to modify the

image data to be displayed in accordance with the determined contrast difference data, in combination with the rest of the limitations of the claim. The set of light intensity data corresponding to a frame of intensity data and the gradient or contrast is determined across a plurality of pixels within said frame of intensity data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
